

SERIES DESCRIPTION

TYPE: Topographic; colored; gridded (1,000 m. British-N.E.I. Equatorial-Blue).

FORMAT: 10' sheets. Meridians based on Batavia Projection values are shown only in index to adjoining sheets.

SOURCES: Original Dutch 1:50,000 maps dated 1941.

PREPARATION PROCEDURE: Dutch Maps were reproduced in facsimile by negative separation using the same colors. The symbolization is the same as on the originals. Mask bearing standard AMS border data was added in black; grid added.

CHARACTERISTICS: Contours shown at 25 meter intervals, with every tenth contour accentuated. Woodland shown by individual tree symbols on the black.

RELIABILITY: Good.
